About Meteo Protect

Meteo Protect is the leading specialist on weather risks. We offer customised risk management solutions to reduce exposition and manage volatility with innovative financial solutions, including index-based weather insurance and derivatives products. Meteo Protect is incorporated in France, with representatives in London and India, and the company operates anywhere in the world. The company is registered as an insurance and reinsurance broker and as a financial investment adviser.

As it grows, Meteo Protect needs to be proactive in its communication, towards its clients, partners and network.

Working closely with the Marketing department, the candidate will have a major role to play in creating the branding image of the company through many media : website, blog, pamphlet, videos, invites to events organized by Meteo Protect etc.

The profile we are looking for

- ✓ Knowledge in Web development : HTML, CSS, Javascript
- ✓ Expert command of Adobe Creative Suite (InDesign, Photoshop, and Illustrator)
- ✓ Intermediate to expert skills in Video/Animation (Premier and/or After Effects) and Presentation (Keynote)
- ✓ Strong organizational, communication, problem-solving, and interpersonal skills
- ✓ Collaborative team player with an ability to prioritize and handle multiple assignments simultaneously
- ✓ Outstanding online portfolio demonstrating success in creating beautiful interactive designs, print designs and result-focused marketing designs
- ✓ A clear and effective communicator with the ability to strike a balance between showing initiative and seeking appropriate guidance and input from others

If you think your experience and abilities match our request, please send us a short cover letter and a link to your portfolio and websites you have previously worked on to contact@meteoprotect.com
